SUBJECT: TASK ORDER NO. 03(100,762)65R

ENCLOSURE: a) Electrophotographic Processing Techniques, First Interim  
Technical Report, Two (2) Copies

STAT

Gentlemen:

forwards herewith

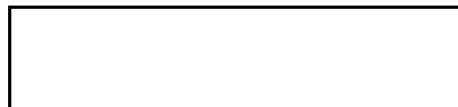

Enclosure a) in accordance with the reporting requirements under Deliver-  
able Item 2.a. of subject Task Order.

It should be noted that the halftones on pages 29 through 33 are not of  
sufficient quality to represent the actual output of the breadboard  
electronic film processor. This is because of the normal percentage of  
degradation that occurs in each step of the reproduction process. The  
photographs, suitable identified, are being reproduced on glossy photo-  
graphic paper to better show the capabilities of the breadboard. One  
set of these photographs, to be treated as an attachment to the report,  
will be forwarded under separate cover for each of the five contractually  
required reports.

By copy of this letter, we are forwarding three (3) additional copies of  
the report to the Technical Representative.

Kindly acknowledge receipt of the enclosure by signing and returning the  
attached receipts.

Very truly yours,

Contract Representative
